Elective 3.0 Credits	
Human Capital Strategy Capstone MHR 7312 - 3.0 Credits	

Practicum (Internship or Tutorial) vs. Thesis

Most MHRM students pursue the practicum option with a summer internship or tutorial in a current role. Students looking to gain research experience can instead choose the thesis option. No matter which path you take, the coursework in *Contemporary Topics in HR & Professional Development* is tailored to your practicum or thesis selection.

*The *Contemporary Topics in HR & Professional Development* course (1 credit hour each semester) meets from 5 – 6 p.m. one day a week.

**Updated elective recommendations including a Coaching Series, Negotiations, Diversity and Inclusion, and Leadership Effectiveness through Applied Projects (LEAP). Some students may decide to split their summer electives over two semesters.

‡Ohio State Fisher College of Business undergraduates with a major in human resources can waive out of these three courses (9 credit hours) and replace them with electives.
